HOT BLAST DEMONSTRATION SEPTEMBER 30TH.

TO HEATER WANTERS:

Just imagine a Heater that will give the same amount of heat out of 1-4 tons of the cheapest kind of soft coal as a high-priced burner will with one ton of hard coal.

That's what is claimed for BUCK'S HOT BLAST, and in order to prove it, we are going to give a demonstration in front of our store on SEPTEMBER 30, beginning at 9 a. m., and continuing all day.

We are going to show that the 38 per cent. of gas and smoke in soft coal can be, and is used, as fuel in this wonderful heater.

If you have any idea of buying a heater, you should call and let us show you a BUCK'S HOT BLAST. They are just exactly what you want.

There is one on exhibition in our window==See it.

Everybody Respectfully Invited.

What MITCHELL Says

Lots of good people have quit making Ice Cream. They just send to me and get better than they can make.

I have been furnishing quite a number of people with Orange Ice for receptions. They have all been pleased.

Some buy my Peach Ice Cream, and I claim it is the best ever sold in Paris.

All the Soda drinks I make are strictly fine and you will do well to call at my store when you are dry.

I am the whole thing when it comes to fine confections.

The girls all say so.

Yours truly,
